

CMS Ergonomics are leading suppliers / manufacturers of ergonomic office furniture accessories.

Welcome to the latest edition of the CMS Ergo newsletter.

The first quarter of the calendar year has shown significant growth. With many clients realising that greater margins can be achieved by utilising Ergos' extensive range.

PRODUCTS

Concerto 12" Pole and End Cap

CMS Ergo can now offer our clients a new height alternative for the Concerto post with a modified end cap. The post comes in both 12" and 16". This is a cheaper alternative to the standard post and because the end cap is already fitted it saves on installation time. A shorter post means there won't be any overlap on standard dividing screens.

If you would like further information on our new post please contact us on [sales@cmsergonomics.com](mailto:sales@cmsergonomics.com)

Telephone Mount

The telephone mount is our latest addition to the Concerto range. The adaption can be added to an existing Concerto monitor arm or independently with the new 12" post.

For more information please do not hesitate to contact the Ergo sales team on [01235 773373](tel:01235 773373).

In House CAD design

Bespoke brackets can be designed and manufactured in house by our own engineers, this gives absolute flexibility on any installation, including multi screen applications.

If you would like further information on how our CAD team can help you please email [Damian Leahy](mailto:dleahy@cmsindustries.com) with your enquiries.

Laptop—Monitor Stand

It is becoming common to run both a laptop and a fixed monitor screen from one workstation. This enables the user to open multifunction programmes within the operating systems of the laptop. A perfect configuration would be the laptop-monitor stand from our Concerto range allowing you to view both screens from only one source.

Please call our office on [01235 773373](tel:01235 773373) for a quote and availability.

Stream Going White

Our Stream range has been engineered to offer our clients a cost effective but aesthetically pleasing solution to their ergonomic requirements.

Due to popular demand we can now offer the arms in white. Available in both tool rail and post fixing.

For further details please email [Damian Leahy](mailto:dleahy@cmsindustries.com) on [dleahy@cmsindustries.com](mailto:dleahy@cmsindustries.com)

Projects

CMS Ergo recently supplied Stream monitor arms to Polish manufacturer Balma who have completed a successful installation of over 130 workstations to a large central London based company.
