

The logo for 'ergo' is a teal square with the word 'ergo' in white lowercase letters.

ergo

The product name 'X-STREAM' is written in a teal, sans-serif font.

X-STREAM

X-STREAM

With a minimalistic profile **X-STREAM** offers a cost effective, flexible solution to achieving the perfect ergonomic working position.

Developed using our In-house design team, **X-STREAM** consists of a series of interchangeable modular components, providing the user complete flexibility in adapting the configuration to suit their exact requirements.

Soft touch tactile height adjustment lever.

Optional height adjustable ratchet mechanism.

Tilt and rotate screen mount featuring a lockable quick release VESA function.

Metallic head mechanism highlighting the easy to use tension adjustment.

At full extension **X-STREAM** provides a reach of 450mm, folding back on itself into a space of 40mm.

Standard height adjustment ranges from 270mm – 410mm. However this can be extended with the use of an optional front end height adjustment ratchet mechanism.

Standard through desk fixing.

Standard desk clamp for 20mm to 30mm desktops.

Available with desk clamp, tool rail and through desk fixings. **X-STREAM** also offers a unique weight loading capacity enabling the user quick and easy screen interchange. Our cable management system spanning the entire arm from desk to screen provides the user with a clutter free environment.
